## Retraction

---

The article 'The Tumor Suppressive Role of MiRNA-509-5p by Targeting FOXM1 in Non-Small Cell Lung Cancer' [Cell Physiol Biochem 2016;38:1435-1446;DOI: 10.1159/000443086] by Ning Ma, Weihua Zhang, Chenhui Qiao, Hong Luo, Xin Zhang, Donghai Liu, Suhua Zang, Liang Zhang, and Jingyun Bai has been retracted by the current and former Publishers and the Editor.

Following publication, image concerns were raised regarding Figure 3F. Specifically, the same image was used to represent H1299 0-hours NC and H1299 0-hours mimic groups. Additionally, the same image was used to represent A549 0-hour NC and A549 0 hour inhibitor groups. The image presented as representative of the H1299 48-hour mimics group was found to overlap with the image presented as A549 48 hour NC.

The authors did not respond to requests to comment on the concerns within the given timeframe despite multiple attempts of contact. The matter has been raised to the corresponding author's institution who did not respond to our request for an investigation. Given the severity of the concerns raised this article is being retracted.

The authors have not responded to our correspondence regarding this retraction despite multiple attempts of contact."
